Precision outer appearance design with cold-rolled sheet double-sided electrostatic resin high-temperature spray, and the inner chamber is completely sealed and welded with international SUS #304 heat-resistant and cold-resistant stainless steel. The insulation layer is made of fire-resistant high-strength PU polyurethane foam insulation material. The refrigeration system introduces advanced energy-saving refrigeration control technology from Japan and Germany, which can save more than 20% compared with traditional equipment. The control system and control circuit both adopt imported brand components.

Reference standards

- + Manufacturing Standards: GB/T10586-2006 and GB/TL0592-1989
- * Calibration Standards: GB/T5170.2-1996, GB/T5170.5-1996
- * Meet the test standards:
 - GB2423.1-2008(IEC68-2-1) Test A: Low temperature test method
 - GB2423.2-2008(IEC68-2-2) Test B: High temperature test method
 - GB/T2423.22-2008 Test N: Temperature change test method
 - GJB150.3A-2009(MIL-STD-810D) High temperature test method
 - GJB150.4A-2009(MIL-STD-810D) Low temperature test method
 - GJB/150.5-2009 Temperature Shock Test.

The thermal shock test chamber (two zone) has a sleek and precise appearance design, with an external chamber made of cold-rolled sheet double-sided electrostatic resin high-temperature spray, and an inner chamber made entirely of international SUS #304 heat-resistant and cold-resistant stainless steel, with a sealed welding. The insulation layer is made of fire-resistant high-strength PU polyurethane foam insulation material. The refrigeration system adopts advanced energy-saving refrigeration control technology imported from Japan and Germany, which is more than 20% more energy-efficient than traditional equipment. The control system and control circuit both adopt imported brand components.

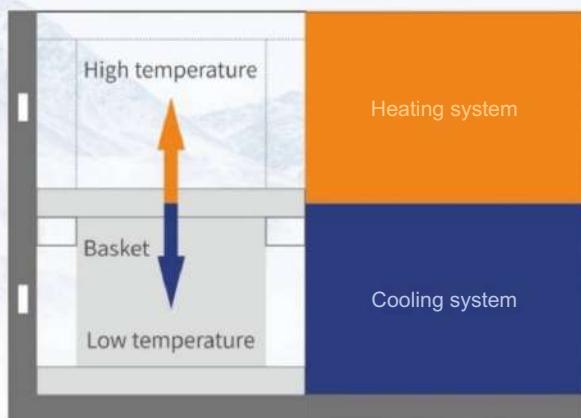

Product Usage

This equipment is suitable for various electrical and electronic products, components, and materials for high and low temperature constant and various temperature shock and temperature change reliability testing.
